- xix. NGO/CBO involved in any committees formed by SACS / government departments

15. Name of the person who filled this form:

Qualification and experience:

Designation:

Address:

TOR /Scope of work involved

Targeted interventions (TI) and Link Worker Scheme (LWS) are aimed at offering prevention, testing and care services to populations with high risk behavior. These populations include Female Sex Workers (FSW), Men-who-have-sex-with-men (MSM), Transgenders (TG), Injecting Drug Users (IDUs) and Bridge Population (Truckers and Migrants) and Prisoners with the active involvement of the community. These interventions seek to reduce risk and vulnerabilities associated with these populations and to increase health seeking behaviour.

Components of Targeted Interventions under NACP:

1. Social and Behaviour Change Communication

- This component involves understanding and assessment of individual and group practices/behavior which can pose risk to HIV infection.
- Development of context specific strategies/activities to address the risk of infection through peer counseling, professional counseling, creating enabling environment to reinforce safe practices.
- The Peer educators/ peer leaders and Out Reach Workers/ Health educators lead activities under this component through one-to-one sessions and group sessions among the community.
- Information, Education and Communication (IEC) materials are developed to further augment behaviour change.

2. Access to HIV prevention, testing and treatment services

- This component is aimed at improving access to STI services as STI (both symptomatic and asymptomatic) pose greater risk for HIV infection.
- Access to STI services is provided through three different approaches i.e. Project Based Clinics, Fixed day and time – Fixed time out reach clinics and Referral clinics either with private or public facility. Also health camp based approach is adopted for interventions working with migrants.
- All IDU projects are required to establish a static clinic within the DIC for abscess

management, STI treatment and treatment of common physical co-morbidities. Whereas FSW MSM and TG TIs would have their DICs attached to project office or as decided in the contract. The migrant TIs would have 3 DICs in place preferably at the worksite, residences and project office or as decided in the contract.

- Under TI budget there is provision for part time doctor and ANM / Counsellor for TI.
- Provision of commodities such as condoms, STI Kits, needle and syringes and lubes to ensure safe sex/injecting practices
- Enabling Environment through structural intervention. The interventions focus on creating an environment which facilitates access to information, services and commodities by the high risk groups. The interventions carry out advocacy with key stakeholders and elicit their involvement in the HIV prevention programme
- Linkages to ICTC, ART, Community Support Centre, NTEP Programme, Government OST centre, Detoxification services (for IDU projects). Some of NGO projects working with IDUs may be required to implement Opioid Substitution Therapy directly in addition to the other preventive services mentioned above.

Expected Deliverables

- The NGO/CBO contracted by SACS is expected to maintain separate full time staff as per the provisions and ensure that they are performing as per their TOR.
- The TI project would work with specified groups in a locality as designated by SACS.
- The TI/ LWS project is expected to provide regular services (as per the provisions in the contract and project proposal) to the target group, make available condoms, lubes, needles and syringes as per their requirements.
- The TI/LWS project is expected to perform based on the performance indicators as agreed in the contract. This includes service provisioning to the target group, linking with services such HIV testing at ICTCs or through Community Based Screening (CBS), linkages with DSRC/ STI clinics, linkage with TB programme, ART programme and other social development programmes.

- The TI/LWS project is expected to maintain financial records and other documents in the TI project office as agreed in the contract and would be required to report to SACS/ TSU/NACO..
- The TI/LWS project is expected to provide support in implementation of TI Revamped Strategy programmatic Mapping Population Size Estimation (MPSE) and HSS.
- The project is expected to provide HIV/AIDS prevention, testing and treatment services to spouse/partners of HRGs and Index testing of PLHIV also.
- The NGO/CBO is expected to provide support in terms of advocacy and networking with local stakeholders to ensure that there is an enabling environment is maintained in the project area.
- Project to extend and ensuring to reach out the target community by linking them with various social protection scheme.

Conflict of Interest

- Neither the NGOs/CBOs/Organisation, their personnel, agent, network partner or service provider nor their personnel shall engage in any personal business/professional activities, either during the course of or after the termination of contract, which conflict with or could potentially conflict with the object of the SERVICES.
- The NGOs/CBOs/Organisation shall notify the GRANTOR immediately of any such activities or circumstances, which give rise to or could potentially give rise to a conflict and shall advise the SACS/NACO how, they intend to avoid such a conflict.
- NGOs/CBOs/Organisation (including their personnel, agent, network partner or service provider) shall not have a close business or family relationship with a professional staff of the SACS/NACO who are directly or indirectly involved in any part of the selection process or the supervision of services provided under this Contract/Project/Intervention.
- In the event of a conflict as described above arising during the tenure of this Contract, the SACS/NACO reserves the right to terminate this Contract on giving written notice to the NGOs/CBOs/Organisation.
